

Digital Signage Player Solution that fits in the palm of your hand

The DV700 player is designed for ultra-high quality digital signage. It's powered by an integrated Intel HD Graphics 540 chipset, a dual-core 1.9 GHz Intel Core i5-6260U processor with Windows 7E OS and Dyna View Digital Signage software installed. The 700 model delivers smooth 4K visuals to any monitor or TV with a HDMI port, greatly upgrading the digital signage display quality and enhancing the customer viewing experience. Its ability to run multiple HD videos at the same time sets it apart from other players in the comparable price range. The player is small and light enough to mount to the monitor with ease. The DV700's Solid State Hard Drive comes pre loaded with 8GB of memory ready to stream even the most complicated signage presentation.

- **Powerful enough to run numerous full HD videos and multi area content at the same time without stuttering or crashing**
- **Highest quality components**
- **Fast Start up, quick updates via Wi-Fi or Cat 5 connection**
- **4K UHD - HDMI out**
- **Space Saving without Compromise**
